## SPECIAL DIWALI DISCOUNT OUR FULL PACKAGE COURSE RS15500 CALL 9840348971 OR [VISIT](#) FOR DETAILS VALID TILL 18<sup>TH</sup> OCTOBER 2017

Friends!

1 SD formula which is giving success in weekly forecast from past **93weeks**. Below given the weekly level for nifty future and bank nifty future for **103<sup>th</sup> Week** (i.e. 16<sup>th</sup> to 18<sup>th</sup> October 2017).

What is 1 SD formula? Price range= (Price \* volatility \* square root of day) /square root of 365

Trend identification as per Fibonacci principle

1sdprice range		110.961	
	Nifty	10194	
<b>Nifty future Trend with real time volatility 7.87</b>			
0.236	26.187	10220.2	10167.8
0.382	42.387	10236.4	10151.6
0.5	55.48	10249.5	10138.5
0.618	68.574	10262.6	10125.4
0.786	87.215	10281.2	10106.8
0.888	98.533	10292.5	10095.5
1.236	137.15	10331.1	10056.9
1.618	179.53	10373.5	10014.5

**Range bound trend identification:** if all up-move invites sale **above 10250** and all down move invites short covering at **10139** level this indication is sufficient to conclude that the price action is in the range of **10250 to 10139**.

**How to trade nifty future in uptrend above 10220 ?** if nifty cross 10220 then you buy future with 10200 put option buy. If it achieves the 1<sup>st</sup> target 10263 during the day or any point during the week revise your stop loss to 10236 and hold the trade. If the 2<sup>nd</sup> target 10281 achieved revise the stop loss to 10250 and hold the trade. If the 3<sup>rd</sup> target 10292 achieved, then trail or revise the stop loss to 10281. Continue this till last target is not achieved or trailing stop loss is not triggered. If trailing stop loss trigger, then close the hedging option position also.

**How to trade nifty future in Down trend below 10168?** if nifty fall below 10168 then you sell with 10150 calls option buy. If it achieves the 1<sup>st</sup> target 10125 during the day or any point during the week revise your stop loss to 10152 and hold the trade. If the 2<sup>nd</sup> target 10107 achieved revise the stop loss to 10139 and hold the trade. If the 3<sup>rd</sup> target 10095 achieved, then trail or revise the stop loss to 10107. Continue this till last target is not achieved or trailing stop loss is not triggered. If trailing stop loss trigger, then close the hedging option position also.

**Option strategy: Contra trend net credit option strategy in nifty:**

- if nifty give up trend cross over 10236 then sell November 10200 put and buy 10150 October put each one lot book profit above 10262 book losses below 10152.
- if nifty give down trend cross over 10168 then sell November 10200 call and buy 10250 October call each one lot book profit below 10125 book loss above 10263.

For real time profit and loss analysis refer our option strategy software

**Note:** I am using the call long simple option strategy to demonstrate hedging principle in trade. However, you can write the option also and do any complex strategy to protect the trade.

If your trade is with the option hedge and future has reached the stop loss, then do not quit the trade in hurry better wait for conclusive price crossover of 0.382 retracement
